it's SANITARY

ALL PARTS QUICKLY REMOVABLE FOR EASY CLEANING

GROEN exclusive removable shaft coupling permits dismounting in a few seconds of all agitator parts for easy cleaning. Result: the Model-RA GROEN Stainless Steel Steam Jacketed Cooker-Mixer is completely sanitary and COMPLIES WITH THE MOST RIGID HEALTH DEPT. REQUIREMENTS. This coupling cannot disengage in operation, and its strength equals that of a solid shaft. Mixing mechanism is highly efficient. Revolutions of large scraper blades maintains continual movement of contents away from heated walls and against baffle plate. Smaller blades at end of shaft prevent settling of unmixed portions. Bracket at top permits installing thermometer into heart of mixture. Details about this and our heavier-duty Model TA are given in Bulletin AK. Write for it. GROEN MFG. CO., 4551 W. Armitage Ave., Chicago 39, Ill.
